

# Disaster Supply Checklist for Pets

Prepare one kit for each pet in your household.

**Food and Water:** Store in an airtight container labeled with your pets' name. If your pet eats wet food, buy cans small enough for one feeding as you may not be able to refrigerate leftovers. Include a can opener.

**Identification:** Make sure your ID tags are up-to-date. Microchip your pet. If your pet is already microchipped, make sure your contact information is current.

## Checklist:

- 3-7 days' worth of canned or dry food
- Bottled water, at least 7 days' worth for each pet
- Bowls for food and water
- Pet first-aid kit
- Disposable litter trays (aluminum roasting pans are perfect)
- Scoopable litter and pooper scooper
- Liquid dish soap and disinfectant
- Poop bags
- Garbage bags and paper towels for clean-up
- Extra collar or harness as well as an extra leash
- Photocopies of medical records and a waterproof container with a two-week supply of any medicine your pet requires
- A traveling bag, crate or sturdy carrier, ideally one for each pet
- Flashlight
- Blanket
- Recent photos of your pets (in case you are separated and need to make "Lost" posters or show proof of ownership)
- Toys for entertainment
- ID tags

If you need to evacuate to a pet-friendly shelter:

- Bring a collapsible wire cage or plastic crate. For dogs, this needs to be large enough for them to turn around in and allow room for food/water bowls. For cats, it needs to be large enough to include a litter box and food/water bowls
- Towels to cover the cage/crate
- Muzzle for aggressive dogs
